# Your New Spring Suit ...

We don't know a better dollar-for-dollar value than a new suit from this group. Come in tomorrow and run your eye over their fresh clean lines. Run your fingers over the sturdy tweeds—the smooth all-wool worsteds, or the distinctive serges—then let the excellent Eaton tailoring tell its own quality story—and you'll share our enthusiasm for this remarkable suit value.

You'll find a wealth of new pattern achievements and many of Spring's new color-successes.

Single-breasted—also the exceptionally popular new double-breasted sport styles and special models for various types of figures. Sizes 34 to 44, at ..

**\$25.00**

With One Pair Trousers . . . . . \$20.00

BUDGET PLAN AVAILABLE

Men's Clothing Section, Main Floor, Hargrave

## Spring Hat Fashions

Borsalino, Knox, Christy's, Stetson, Moore's, Biltmore and Robert Crean

Step into the Hat Shop and march out briskly into Spring wearing a hat that's the utmost in fashion smartness. Select from lines bearing the handiwork of master-craftsmen — headwear that will "top-off" your ensemble to a nicety.

Color tones of grey, blue-grey, pearl, green—a shade that's hitting a high-spot in popularity this season—and brown in light, medium and dark.

**\$3.50 to \$8.50**

Men's Hat Section, Main Floor, Hargrave

**THE T. EATON CO. LIMITED**

## A CHANCE TO BE LIKE OTHER CHILDREN

Every crippled child longs for the chance to be like other children. It is such a pathetic thing to see a child unable to use his limbs to run and climb, to play and enjoy life with other children.

Thus, it is natural for us to make every effort to provide them with the skill of devoted doctors as a means of curing or lessening their crippling deformity. And yet with all the marvels of modern surgery there are still many crippled children who must face life with physical handicaps which are permanent. Destroyed by Infantile Paralysis, the marvelous mechanisms of muscles and nerves cannot be restored by human hands. The joints destroyed by Tuberculosis can never be restored, even though the disease itself has vanished.

What else remains for us to do to help the crippled child?

First, to take an interest in any measures that may be undertaken to ensure every crippled child an opportunity for care.

Second, to co-operate with the organizations that are striving to secure medical treatment and education for crippled children.

Third, to understand the needs of a crippled child who is always ready to adjust himself to his condition provided his physically normal associates learn to overlook his handicap, and so avoid arousing in him any feeling of unwarranted self consciousness and inferiority.

Fourth, to teach the crippled child to be self-reliant by encouraging him to do everything for himself that his physical handicap will permit. Always refer to his handicaps in a normal manner, allowing no pity, no spoiling, or sentimentality or anything that might make him conscious or ashamed of his physical infirmity.

If a crippled child has been taught to face his situation squarely, he will be partially prepared for what the future may hold. "It is rare indeed that a crippled child accepts defeat at the hands of a cruel fate. Much more often he is stirred to achievements which he never would have attempted had he not been spurred on to do things in the world as well, nay better, than average beings do."

HERE we have a group of smiling happy children, who are being treated in the Shriners' Hospital for Crippled Children, Main and Aberdeen Streets. None of these boys and girls are over fourteen years, the maximum age they can be accepted at. The picture was taken ten years ago, and some of them are now married, others working, earning their living. What would these children have done if they had not been helped by the Shriners? Free treatment is provided for those affected with club feet, curvature of the spine, tubercular spines and joints, infantile paralysis and such other diseases and deformities as come within the scope and province of orthopedic surgery. Another condition of admission is that they must be of parents who are financially unable to afford the expense of treatment, and thorough investigation is made of this before the application is accepted. There are no restrictions as to race, creed or color.

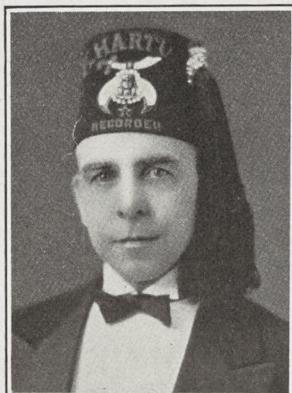

All these patients are happy because they feel they now have a chance of becoming normal, enabling them to run and play like other children.

We have now been in operation in Winnipeg for 12 years as one of the fifteen hospital units established by the Shriners throughout the United States and Canada in which sixty-two thousand children have been treated in the fifteen years this philanthropic activity has been established. Over a thousand have been treated in Winnipeg Unit in the twelve years we have been operating, these patients coming from the four Western Provinces.

Our hospitals are financed by your support of our activities such as this Circus, plus \$2.00 per year from every member of the Shrine, and the activities of the Shrine Ladies' Auxiliary. This is how we are enabled to give free treatment to those who cannot afford to pay and would not otherwise be rehabilitated. Thank you for your support. Come again.

WM. C. BORLASE  
*Past Potentate      General Chairman*

WM. SHENTON  
*General Secretary*

## Khartum Shrine Temple

Desires that each and every one of you enjoy yourselves to the utmost. In bringing you this clean and wholesome entertainment the Circus Committee has spared neither time nor money. Our Annual Circus, we believe, will become the outstanding winter festivity within the trade area of Winnipeg. As you have enjoyed the show, so will your friends. Tell them about it. We appreciate your patronage and hope you will be with us next year.
